

# HOW TO IDENTIFY A SAFETY DEVICES CAGE

## FOOT PLATES

All of our roll cages are stamped with a specific cage ID and sales order number that can be used to identify the origins of a roll cage. As a general rule, the ID numbers are stamped on the footplates of the roll cage (main hoop either passenger or driver side). Please supply photos of all plates, showing the ID numbers.

## HOMOLOGATION STICKER

If your roll cage is a homologated cage, then you should have a homologation sticker attached to your cage. This is usually located on the main hoop and will have the Cage ID number and the Sales order number.

## ADDITIONAL INFO

If neither the footplate stamp or Homologation stickers are present. Please take pictures of your cage from the front, rear and sides; being sure to include all the joints and saddle brackets. Please then send these to a member of our team and we will be able to help with the identification.
